## PacMMS Sea Traffic Management Queuing Enrollment

The container vessel queuing process for assignment of labor in ports is now based on a vessel's departure time (UTC) from its Last Port of Call (LPOC). To get in the queue vessels are required to enroll with the Pacific Maritime Management Services (PacMMS) and follow the online enrollment process at <a href="https://www.pacmms.org/enroll">https://www.pacmms.org/enroll</a>.

If you cannot access the website, complete the following form and email it to: <a href="mailto:queuing@pacmms.org">queuing@pacmms.org</a>. Be sure to add this address to your vessel's email whitelist to ensure successful follow-on communication.
